

# Osaka Gas Network City Gas Service Map

Our pipeline network covers a vast area, with a total length that exceeds one and a half times the circumference of the Earth.

At nearly 63,000 km in length our pipeline network is longer than one and a half times the circumference of the Earth. Osaka Gas Network distributes city gas to customers in seven prefectures, mainly in the Kansai region. Continued, planned maintenance and expansions of our pipeline network helps bring city gas to more customers and improves supply stability.

Main data (as of end of March 2023)

		Pipeline length
High-pressure pipeline		761km
Medium & low-pressure pipeline	Main and branch pipeline	50,923km
	Supply pipe	11,386km
Total		63,071km
